ITEM:	GUIDE:	PRO TIP:	Your Personal Note:
Foundation	Start with a moisturizer under your foundation. Use a Matte finish. Stay away from those marked as 'dewy'. Find a coverage 2-3 shades darker than your normal skin.	Use makeup sponge. Remember to blend from jawline to neck. Don't forget to apply to eyelids.	
Eyeshadow	Purchase a tri or quad color palette in browns, taupes or greys. Apply more than you may think necessary!	1)Medium color applied from lash to brow 2)Darkest color apply in crease 3) Lightest color to highlight upper arch just under brow	
Black eyeliner	Use a freshly sharpened or turned up pencil.	Do not use long wings. Some roles require extended 'wings' & will be applied in the Makeup Room.	
Mascara	<b>BLACK</b> Mascara. Your choice but must be Black!	If adult applying on child: Easiest thing to do is have them close their eyes. First swipe down on top of lash, then swipe up and hold. OR look straight out and try similar technique.	
Blush	Apply along cheekbone brushing upward.	Do not apply to apples of cheeks	
Lipstick	You may want to start with chapstick or liner - depending on your individual needs. This should be bright red lipstick.	A little foundation on the lip will help lipstick stay bright.	
*False Eyelashes* - Only needed for Select roles	Only roles in PP3 and very few in PP2 will require. Do not use unless specifically requested to do so.	It is preferred to not have a heavy lash. You may need to add a bit of mascara after applying lash, but go light.	
*Optional items to consider*	1)Concealer - consider if performer has under eye circles or skin breakouts 2)Lipliner - your performer may need this to keep lipstick in place 3)Neutral Powder - your performer may need an application of loose powder to set the makeup & cutdown on shine.	Experiment beforehand! Plan ahead! Know how long it takes to apply base make up. <b><u>Base makeup is applied at home - BEFORE arriving at theater!</u></b>
